

# Loss Protection Programs

At UOVO, we are committed to the preservation of art above all else. Our loss protection programs can mitigate financial risk and give clients extra peace of mind while their property is in storage or transit with UOVO.

We offer two protection plans with varying levels of coverage: Comprehensive Protection Plan and Total-Loss Coverage.

|                                    | COMPREHENSIVE PROTECTION PLAN   | TOTAL-LOSS COVERAGE   |
|------------------------------------|---|---|
| Scope of Coverage                  | A comprehensive protection program that broadly covers loss, theft, and any damage to your property.  | A streamlined, cost-effective option that covers total destruction or theft of your property. |
| Condition Report Requirement       | A formal condition inspection is required upon receipt and release of each item to verify its status.   | Not required.   |
| When Coverage Applies              | Depending on your enrollment, coverage applies while artworks are in UOVO's custody – whether in storage at a UOVO facility or in transit organized through UOVO. |   |
| Relationship To Insurance Policies | Provides coverage to items that do not fall under a separate fine art or homeowners insurance policy – or can supplement an existing insurance policy.            |   |
| Value Covered                      | Itemized inventory lists are required—each item must have its own value. Coverage cannot apply to the collection as a whole and there is no deductible.           |   |

To learn more about our loss protection programs and how you can better protect your artworks, contact us to speak with a member of our team or get in touch with your Account Manager today.
